Our 4 fields of action and their impacts

Support youth success

I wanted to thank you for the last few years we spent together, for the recommended activities, and for getting to know people who love their work, people who are dedicated to their young people. My mother would also like to thank you from the bottom of her heart for helping her with food aid and helping me have many new experiences and overcoming my shyness.

I felt misunderstood and on the brink of death all the time. No one was hearing me, or extending a helping hand. She (the worker) believed me and supported me, and provided me with a rock to hold on to for survival and the right to live. I had someone I could call in case of stress. Now someone listens and I don't have to waste time talking for no reason. Someone believed me and it saved my life.
